

## **OFFSHORE WIND DEVELOPMENT – MAKE YOUR VOICE HEARD!**

### ***Upcoming Community Roundtables Will Discuss Questions and Concerns Related to Offshore Wind Development off Oregon’s Coast***

Several community roundtable discussions will be led by some of Oregon’s coastal legislators to discuss questions and concerns about potential wind farm locations being considered for the Oregon Coast. These roundtables are not an official part of the Federal Bureau of Ocean Energy Management (BOEM) and the Oregon Department of Land Conservation and Development (OLDCD) public engagement process. However, these meetings will provide opportunities for community members to have their voices heard and will help inform future input to the BOEM and process by the Oregon legislature.

**Please attend any of the following meetings to voice your opinion about offshore wind development off Oregon’s coast.**
